

Hello Experimenters!

Just a heads up that I'll be away next week for my birthday.

Every year around my birthday I am reminded of a birthday card my paternal grandmother (I named my Bolex after her) sent me in my twenties—she wrote the best birthday cards once I could decipher her handwriting. She wrote to me about how she thought of her birthday as a kind of personal new year. It's something I've taken to heart in what must have been a decade since.

May all our new years (solar, lunar, religious, secular, and personal) be bright.
Gabby
